BACK TO

SCHOOL

Editor's Note.....

'Back to School' offers a fresh start to all!!!

I used to love back-to-school season, in fact I still love it! The new school supplies, new clothes, new lunchbox, and the onset of cooler, crisp air and changing weather. But more importantly, it represents an opportunity for a fresh start and definitely keep our calories burning with some back-to-school shopping. The month of September brings in our much awaited field trip, to exploring Science the FUN way and our most favorite activity, Reading by KG2's to KG1's and of course loads of Positivity and Learning from our loving teachers....

A promise of a Rocking Term 2!!

Until then.....keep reading!!!!

A word from our principal...

Dear Parents,

We love the pit pit patter of tiny feet; the buzz buzz buzzing of the busy minds; the thing we love the most is the beautiful smiles that light up our days, bring freshness to our routines and of course add that much needed energy to get us on our feet.

As much as we look forward to a good break, we look forward to our reopening days with equal fervor. Our little ones fill our environment with enthusiasm, warmth and positivity; and take us along on an exciting journey of learning, unearthing new wonders at every step.

Looking forward to a great Term 2 and the beginning of which; is what follows in the Newsletter.

Happy Reading!

Looking Ahead...
With best regards,
Rashmi Nagendra

Happenings at our Nursery!!

Crazy Hat Day

Children had a great time showing off their wild and crazy head gears on 28th September, 2017 during crazy hat day! We, at Ambassador Nursery aims to help children develop their fine and gross motor skills, as well as to foster social skills and creativity. A simple parade was conducted at the Nursery and Kindergarten Quadrangle to display our little ones brilliant ideas and creativity.

Children were so excited to speak up Regarding their crazy hats. To sum it all, it was a fun day for everyone!

Our Kindergarten Happenings

Theme of the month:

KG 1

Water

KG 2:

CONSTRUCTION ZONE

Field Trip- Dubai Museum

“Culture is the widening of the mind and of the spirit”
- Jawaharlal Nehru.

To reinforce our UAE culture best is when visited personally!! The Dubai Museum is a museum piece in itself, in fact the oldest building in Dubai. From the traditional dhow depicting one of the easy modes of transport, a model of a traditional Gulf-Arab home, complete with wind-tower, and a fully working model of a wind-tower, the traditional, pre-air conditioning way to beat the heat - a local adaptation of what was probably a Persian/Iranian innovation, our kindergarteners grasped it all with amusement and interest. A wonderful learning outside classroom for our dear students!!!

Fun with Science

Always question, Always wonder!!! Our KG1 students were amazed to discover the various hues and magic of 'Air' through many air based experiments conducted in their classrooms while our KG2's unfurled the science of 'Energy' and 'Nature' through their own exploration and observations!!!

Science is the poetry of reality!!!

Reading Day!!

The reading must go on and on and on....our KG2 children took up the opportunity to visit a KG1 class and read out a story to them. Indeed, the whole world opened to them when they started to read!!!!

read
AND
BE BETTER

don't read
and
JUST BE
